Transportation: See "Transport" on Price Sheet
Other conditions: \$75 per man per diem for work outside 100 mile radius from rental stores

This is a new contract awarded to the same vendor.

Bid No. GL7072

This contract covers only those items listed in the price schedule. It is the responsibility of the agency to ensure that other items purchased are invoiced separately. State agencies will place orders directly with the vendor creating a DO in Finet. Agencies will return to the vendor any invoice which reflects incorrect pricing.

Refer also to these multiple award contracts: MA153 Construction Materials, MA201 Lyndon Jones, MA202 Coughlin, MA207 Gades Gold, MA279 Rasmussen, MA280 Staker & Parson, MA283 Burdick, MA1036 Nielson, MA1664 Morgan.

Provide documentation for your choice of supplier and rental rate. Attach this documentation to each rental contract/purchase order file copy.

Heavy Equipment Rental with Operator.
See "Full Contract" for all sections.

- 2.2. The pricing within the bid must be net pricing (to include all costs other than transport) and guaranteed for a minimum of **one year**.
- 3.2. **Fuel.** Equipment is to be delivered with a full tank of fuel and returned with a full tank of fuel.
- 3.3. **Fuel Charge/Credit.** When the price of on-highway diesel fuel exceeds \$2.55 per gallon, contractor may charge for the difference in price multiplied by the AGL (average gallons per hour) multiplied by the hours of actual use. Pricing for any given week will be based on the Monday price of the Energy Information Administration listing for the Rocky Mountain Region found at:
<http://tonto.eia.doe.gov/oog/info/gdu/gasdiesel.asp>
- For example, if in a given week the price of fuel was \$2.85, \$0.30 ($2.85 - 2.55 = 0.30$) may be used to calculate the fuel charge ($\$0.30 \times \text{AGL} \times \text{hours} = \text{fuel charge}$).
- Should the cost of fuel drop below \$2.30 the same formula shall be used to calculate the credit due the state. E.g. $(\$2.30 - \text{lower price}) \times \text{AGL} \times \text{hours} = \text{fuel credit}$.
- 3.4. **Operation Supplies.** Contractor shall furnish all operating supplies. The cost of supplies which must be provided by the user shall be deducted from contractor's invoice.
- 3.5. **Equipment Operator.** The equipment is to be operated by a licensed and trained employee of the contractor. The user reserves the right to request that an operator be replaced.
- 3.6. **Breakdowns and Repairs.** During the rental period, if equipment breaks down due to normal wear and tear it shall be the contractor's responsibility to repair the equipment without cost to the user.
- 3.7. **Insurance.** The contractor must provide evidence of insurance as required by the user before the equipment may be operated. The user shall not be liable for accidents caused by the operator.
- 3.8. **Response.** Equipment should be supplied within a forty-eight (48) hours' notice whenever possible. Comment here on normal availability of equipment: 48 hours.

3.9. Definitions.

- Day - 8 hours
- Week - 40 hours
- Overtime - Over 8 hours a day or 40 hours a week
- Weekend - Hours of Operation on Saturday, Sunday, or a State Holiday.
- Emergency Time - Rental required with less than twenty-four (24) hours' notice.
- Inch/Foot - Price for rotomill rental based on cutting 1" in depth and 1' in length.

- 3.10 State what additional fees if any, are invoiced.
\$75 per man per diem for work outside 100 mile radius from rental stores.
- 3.11 State any other items/parameters applicable to this (resulting) contract. None
- 3.12 Rental stores:
- 825 North Loop Road, Huntington, UT 84528
 - 750 East Ridge Road, Price, UT 84501

FINET COMMODITY CODE(S): For Agency use only
